LONG DISTANCE SERVICE

To place Long Distance calls give the operator the city or town, the telephone number you are calling, if you have it, or the name and address under which it is listed. The operator will ask for your number when she needs it to complete the call.

STATION-TO-STATION CALLS—When you will talk with anyone who answers the called telephone.

PERSON-TO-PERSON CALLS—When you want to talk to a particular person or a particular extension telephone connected through a private switchboard, give the operator the name, extension or department after you have given the distant city and telephone number.

COLLECT CALLS—Upon request, the charges on calls to most points within the Continental United States, Alaska, Canada and to certain overseas points may be collected at the called telephone. Collect calls take the regular Station-to-Station or Person-to-Person rates except that higher Station collect call rates apply where the Station rates are 20 cents or less on calls within Oregon or 25 cents or less on calls outside of Oregon.

LONG DISTANCE RATES from GRANTS PASS

(RATES TO POINTS NOT LISTED MAY BE OBTAINED FROM LONG DISTANCE.)

NIGHT AND SUNDAY RATES APPLY FROM 6 P. M. TO 4:30 A. M. AND ALL DAY SUNDAY

(Night and Sunday rates also apply on calls to many points on the holidays Thanksgiving, Christmas and New Years. Call Long Distance for rate information.)

THE RATES SHOWN ARE FOR 3 MINUTES. THE FEDERAL TAX IS NOT INCLUDED

The rates shown below are those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ACCURACY

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect his recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company following instructions shown under the listings of that company in this directory. The telegram charges will appear on your telephone bill. You may also telephone your telegrams from coin telephones, paying as you would for a telephone call.

HOW TO GET THE BEST USE OUT OF YOUR TELEPHONE

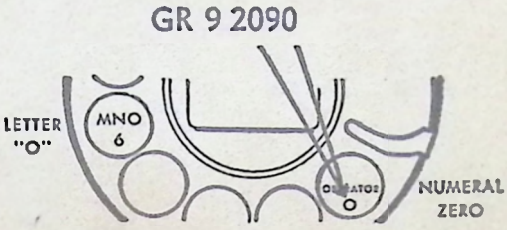

1. Have the right number. Look up any number you are not sure of. Write it down. Refer to it while dialing.

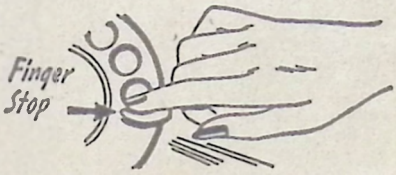

2. Lift the receiver and listen for the dial tone—a steady humming sound. Do not dial before you hear it. (If you do not hear the dial tone within a reasonable time, hang up, wait a few seconds, and try again.)

3. Dial the two letters and the numeral in the prefix—then the four other figures in the number. For example, to call GReenwood 9-2090, dial: GR 9 2090.

In each case, turn the dial until your finger FIRMLY touches the finger stop.

Take your finger out and let the dial return freely until it stops.

OTHER HELPFUL HINTS

Dialing another party on your line. Dial "Operator" to obtain assistance in calling another party on your line.

If your finger slips or a mistake is made, hang up for a moment then after listening for dial tone again, redial the complete number.

If you hear someone else dialing before you dial, tell him you have interfered with his call and make your call later.

Do not turn the dial while talking, it may break the connection.

Be careful not to mistake the letter "O" for the figure "0" (zero).

If you need assistance in completing a call, dial the operator (numeral zero). She will be glad to help you.

When your telephone rings answer promptly. A prompt answer may prevent the loss of an incoming call.

Ringing Signal—A "burring" sound repeated at regular intervals which indicates a called telephone is ringing. Please wait at least 10 rings for an answer.

Busy Signal—A steady "buzz-buzz" sound indicating the called line is busy.

No-Such-Number Signal—A siren-like sound rising and falling in pitch indicating that a dialing or other error has occurred and no such number exists. When you hear it, replace your receiver, refer to your directory to be sure of the correct number and dial your call again.

extension telephones are so handy yet cost so little

For only a few pennies a day you can enjoy the convenience of an extra telephone in your home.

Extensions go almost anywhere in the home—in the bedroom or basement . . . in the den, kitchen, or garage . . . wherever you spend a lot of time. And the cost is small . . . only pennies a day. We can offer this service again because extensions require only additional telephone sets, not outside cables and central office facilities.

To order your extension, just call your Pacific Telephone Business Office.

Behind on orders? Let handy Classified introduce the suppliers you need. It's fast. It's convenient. Wise buyers say there's nothing like the Yellow Pages of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try Classified once . . . you'll use it often.

Want faster Long Distance service?

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

You'll get quicker dial service if you follow these simple steps:

1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

Have the right number when you call. It's natural to trust to memory —but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number—won't you look it up in the telephone directory?

FOR BEST RESULTS WITH YOUR TELEPHONE

please . . .

Make sure of the number. If in doubt consult the Telephone Directory.

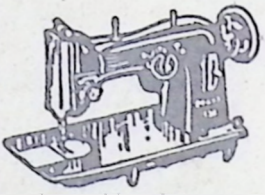

Speak with lips close to the mouthpiece, using your natural tone of voice.

And give the called person TIME to answer!

Thank You!

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop
4. Remove your finger and let the dial return naturally, without forcing or hurrying.

Quickly Hired

Moving problem? Whether you need a piano toter or a house hauler, you can locate things fast by a glance at the Yellow Pages. Your handiest guide to most every sales or service is in the easy listings of the Classified Directory of your Telephone Book. Refer to it first.

You'll find it fast in the YELLOW PAGES

To help speed service...use your Directory instead of calling "Information"

In most cases, the number you want is listed in your Directory and is easy to find. We have tried to make your Directory as easy as possible to use. And it's a good idea to keep a handy list of the numbers you call most frequently conveniently near your telephone.

Three out of five "Information" requests are for numbers already listed in the Directory. Supplying numbers not yet listed is, in itself, a big job. But that's what "Information" is for. So to help us speed *necessary* information calls, please turn first to your Directory. If the number you wish to call is not listed, then call "Information." *Thank you for your cooperation.*

The Pacific Telephone and Telegraph Company

BELL SYSTEM

Aunt Ellie says...

"good neighbors share the party-line, too"

"Land sakes—how I do enjoy seeing good neighbors getting along together... whether sharing homemade apple pie or the party-line telephone! Being a courteous telephone user is a mighty good habit..."

party-line pointers

Space your calls instead of making a whole series of them.

If your party-line neighbor asks you for the line to make an emergency call, it's thoughtful to hang up... and call back later.

If you are calling from a dial telephone, always make certain the line is clear before you dial.

When the children use the telephone, ask them to be considerate, too.

Replace the telephone carefully when you finish your call.

Thank you!

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

The Pacific Telephone and Telegraph Co.

far from home?

Long distance visits cost so little

See for yourself. Check the typical rates listed on the inside cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

Year after year the YELLOW PAGES save you time
